

TECHNICAL DATASHEET

## STALOC COLD SPRAY

SQ-725

### PRODUCT DESCRIPTION

STALOC Cold Spray works as an assembly aid with immediate freezing effect (-45°C). Applying the product eases the assembly of bushings or bearings in narrow fits. The product also serves for detecting failures of electric or electronic parts or items. It can also be used for testing thermostats, freezers, fridges or other household appliances.

Moreover, the product provides for a cleaning effect through freezing certain surfaces. Viscoplastic materials (e.g. chewing gum) can be removed from surfaces / garments / clothes provided by the freezing effect.

### APPLICATION

Recommended application – further information can be found in the material safety data sheet.

Test before use. Apply onto the substrate from a short distance. The longer the substrate is treated, the more efficient the cooling effect is.

**Do not spray on human skin or animals!!!**

**Also, do not use under the following circumstances:**

- In hollow bodies, due to the risk of formation of explosive gas mixtures.
- substrate is under voltage
- on glowing parts (release of tension)

### SAFETY INFORMATION

Please send your request for the latest version of the material safety data sheet (MSDS).

### PACKAGING / VOLUME

400 ml 520 3e á 12 pcs. per box
